## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- Group I.      Claims 1-15, drawn to a used-can processing apparatus, classified in class 241 and subclass 236; and
- Group II.     Claims 16-19, drawn to a used-can processing method, classified in class 241 and subclass 24.25.

Inventions of Group I and Group II are related as apparatus and process for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the process of Group II as claimed can be practiced by another materially different apparatus and not necessarily the specific apparatus of Group I. For example, claim 16 of Group II does not require a pair of rotary blade units and a pair of auxiliary rotary blade units as claimed in claim 1 of Group I.

### ***Conclusion***

A telephone call was made to the attorney of record, Scott Harris, on May 13, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
